

# MEGAMENGER

## Fact sheet: quadruple tripod

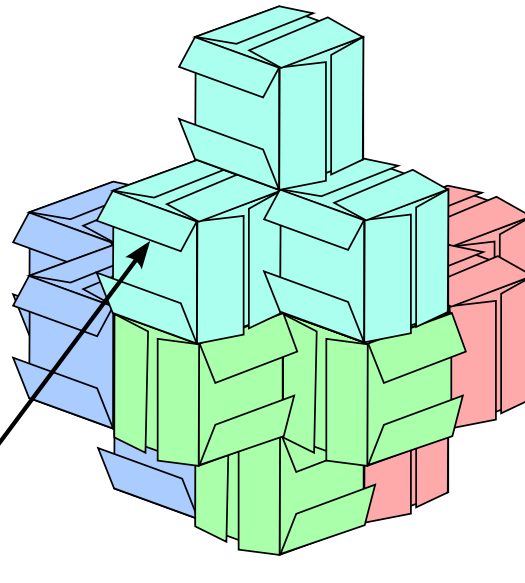

The **QUADRUPLE TRIPOD** is one of the construction units of the level-2 and level-3 Menger Sponges. It is made of four single tripods linked together.

**Number of cubes in each tripod:** 16

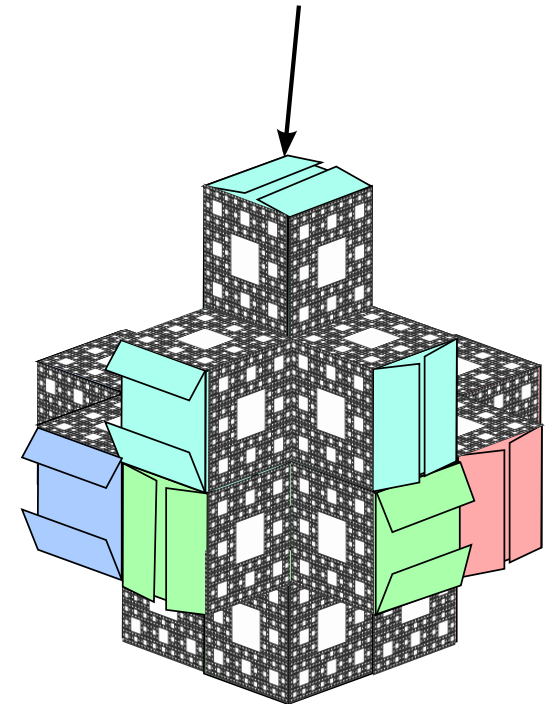

**Total number of business cards:** 96

**Panelling cards need to panel the inside face:** 42

Make sure you get the orientation right - the top single tripod should have horizontal tabs to the left and vertical tabs to the right.

Don't forget to panel the faces on the other side and underneath!
